In Memoriam — M.J. Daniel (2 June 1945 – 4 January 2002) <i>Brian Morton</i>	1
INTRODUCTION	
The history of marine science in Hong Kong (1841–1977) <i>Kerrie L. MacPherson</i>	7
Hong Kong's international malacological, wetland and marine biological workshops (1977-1998): changing local attitudes towards marine conservation <i>Brian Morton</i>	31
TAXONOMY	
Biodiversity of marine fungi in Hong Kong coastal waters <i>E.B. Gareth Jones and Lilian L.P. Vrijmoed</i>	75
Marine nanoplanktonic diatoms from the coastal waters of Hong Kong <i>Ya-Hui Gao, Chang-Ping Chen and Yang Li</i>	93
The nemertean of Hong Kong: their diversity, origins and endemism <i>Ray Gibson and Per Sundberg</i>	109
Marine oligochaete assemblages in a Hong Kong mangrove and adjacent foreshore sandflat, with a description of a new species <i>H. Zhou and Christer Erséus</i>	121

Hong Kong's isopods <i>Li Li</i>	137
A reinterpretation of the taxonomy and zoogeography of <i>Pakistanapseudes</i> and <i>Swireapseudes</i> (Crustacea: Tanaidacea): Hong Kong taxa in the world context <i>Roger N. Bamber and Martin Sheader</i>	167
New species of Amphipoda from Hong Kong shores <i>Roger N. Bamber</i>	195
The pontoniine shrimp fauna of Hong Kong and the South China Sea (Crustacea: Decapoda: Palaemonidae) <i>A.J. Bruce</i>	209
A taxonomic, distributional and bibliographic checklist of Hong Kong marine bivalve molluscs and research published on them from 1971–2000 <i>Paul Valentich-Scott</i>	259
Hong Kong's subtidal oysters (Bivalvia: Ostreidae and Gryphaeidae) <i>Katherine Lam and Brian Morton</i>	311
Morphological and mitochondrial DNA characteristics of two cultured species of cupped-oysters (Bivalvia: Ostreidae) in Hong Kong: towards a significant taxonomic name change <i>Katherine Lam, Brian Morton, Pierre Boudry and Serge Heurtebise</i>	329
 ECOLOGY	
Distributions, diets and reproduction of Hong Kong Sacoglossa (Mollusca: Opisthobranchia): a summary of data, 1980–2001 <i>Kathe R. Jensen</i>	347
Seasonal changes in the planktonic copepod community of the southeastern coastal waters of Hong Kong <i>Christine N.W. Lee</i>	367
Variations in the abundance and structure of the planktonic copepod community in the Pearl River Estuary, China <i>Q.C. Chen, C.K. Wong, P.F. Tam, C.N.W. Lee, J.Q. Yin, L.M. Huang and Y.H. Tam</i>	389
Temporal variations in <i>Aapseudes mortoni</i> (Crustacea: Tanaidacea) densities on an intertidal mudflat at Futian, Deep Bay, China <i>Lizhe Cai, Li Ma, Yang Gao, Junda Lin, Peng Lin and Tianling Zheng</i>	401
Mussels: catalysts to understanding change on rocky shores <i>R. Seed and C.A. Richardson</i>	409

An historical and biogeographical analysis of the marine planktonic copepod community in Hong Kong: a record of change <i>Christine N.W. Lee and Q.C. Chen</i>	433
Temporal changes in a Hong Kong mangrove and adjacent foreshore sandflat meiofaunal communities <i>H. Zhou</i>	459
Histological description of embryonic development in the Chocolate hind, <i>Cephalopholis boenak</i> (Bloch, 1790) (Serranidae: Epinephelinae) <i>M. Liu and Y. Sadovy</i>	475
Contributions of the Hong Kong malacological and marine workshops to the comparative and ecological physiology of intertidal invertebrates <i>Robert F. McMahon</i>	479
 POLLUTION	
Long-term water quality trends in Hong Kong <i>Malcolm Broom, Gary Chiu and Arthur Lee</i>	519
Prevention of aquaculture pollution using seaweeds <i>C.K. Tseng</i>	537
Reducing nitrogen pollution loading from fish farming by changing feeding practices: an example from Hong Kong <i>Kenneth M.Y. Leung, Jim C.W. Chu and Rudolf S.S. Wu</i>	543
The effects of organotin pollution on <i>Nassarius festivus</i> (Powys, 1835) (Gastropoda: Nassariidae) in Hong Kong <i>K. Chan and Brian Morton</i>	555
Changes in benthic infaunal communities in Tolo Harbour: will the trend continue? <i>P.K.S. Shin</i>	579
The occurrence of seabed debris in Hong Kong: a comparison of changes between the 1995 and 2001 trawl surveys <i>K.F. Leung and Paul A. Hodgson</i>	593
Hong Kong's penaeid prawns: a decade long record of change in community composition <i>S.F. Leung and K.F. Leung</i>	615
Effects of long-term anthropogenic perturbations on three subtidal epibenthic molluscan communities in Hong Kong <i>K.F. Leung and Brian Morton</i>	655

Overfishing and changes to the fishing industry in Hong Kong <i>A.W.Y. Leung</i>	719
---	-----

CONSERVATION

The status of horseshoe crabs in Hong Kong <i>Helen M.C. Chiu and Brian Morton</i>	741
The status of scleractinian corals in Hong Kong, with a survey of divers' opinions <i>Manna Wan</i>	757
Studies of Inner Deep Bay, Pearl River Estuary, Hong Kong: contributions to the management of urbanised estuaries in Southeast Asia <i>S.Y. Lee</i>	783
Marine protected areas in Hong Kong: progress towards coastal zone management (1977–2002) <i>Brian Morton</i>	797
